Categories: Pogo FOIA

Hi Zach. Are you still coming to Pogo on Friday? We were wondering if the potential government shutdown would impact your trip.

Stacy is offsite and will be back on Thursday morning.

Pogo proposes the following for the incinerator tests:

Day 1. 35 percent MSW, 45 percent sludge, 20 percent rags: 350-lb MSW, 450- lb sludge & 200- lb rags during 3 test runs.

Day 2. 50 percent MSW, 30 percent sludge, 20 percent rags: 500-lb MSW, 300-lb sludge, 200- lb rags.

Day 3. 65 percent MSW, 15 percent sludge, 20 percent rags: 650- lb MSW, 150-lb sludge, 200- lb rags.

Day 4. 100 percent MSW.
